

SAMSUNG

The Next Big Thing Is Here

Whether you're sharing on your social networks or with other devices, quickly capturing photos and video or multitasking while you watch your favorite video, the Samsung Galaxy S[®] III delivers the power you need to make every action seem effortless.

Samsung GALAXY S III

MULTITASK WHILE YOU WATCH

A crystal clear 4.8" HD Super AMOLED™ display brings your videos to life in amazing detail. And when you need to check your email, send a text or surf the web while watching a video, there's no need to pause the action anymore. With Pop Up Play video picture-in-picture,* you can multitask while you watch.

*Pop Up Play video picture-in-picture only works with a native video.

GET THE PICTURE

An 8.0 megapixel camera with zero shutter lag ensures that you'll catch every moment in stunning detail at the very moment you press the shutter. The Share Shot mode makes it easy for you and your friends to capture and instantly share event and party photos. Anyone in the group can add to the gallery, and even if you didn't take photos, you can still leave with the group's created gallery.

SHARE WITH JUST A TOUCH

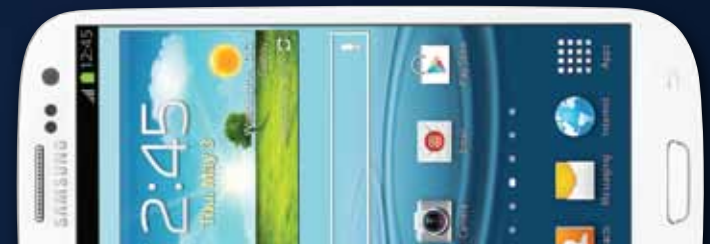

Share more and share it fast with S Beam™ on the Samsung Galaxy S™ III. From photos to documents and large video files to maps, you can share almost anything instantly with one touch, simply by placing your phones back-to-back.
