

## MobileNation Samsung Galaxy SII Android 4.1.2 Jelly Bean Operating System Update

- 1) From a Computer (not from your phone) Go to:  
<http://www.samsung.com/us/support/owners/product/SCH-R760IBAXAR>
- 2) At the bottom, select **Manuals & Downloads**, & then click on **Software**, then select **ver.GB28** link. Then click and agree to download the EXE file by clicking on the EXE button. Please note that depending on your internet speeds, it could take some time to download file.

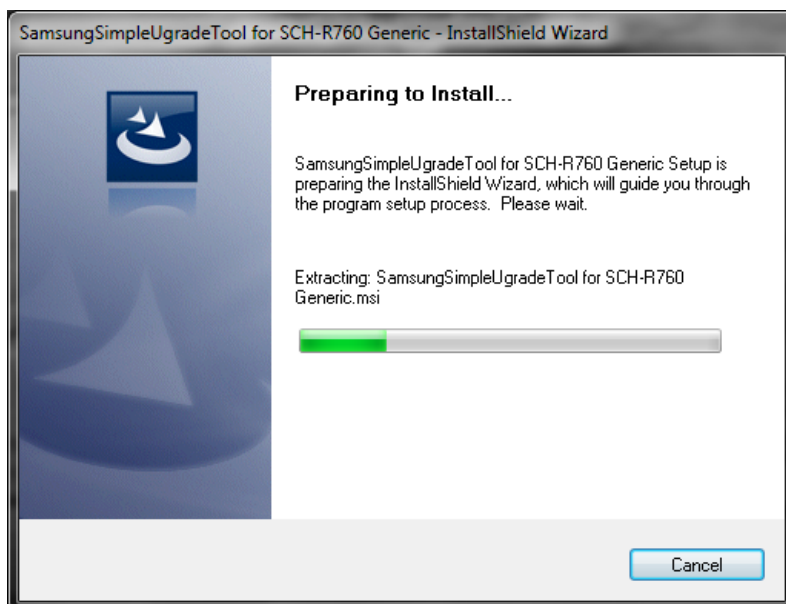

Description ^	OS	Release Date	Language	Size (MB)	Download File
<b>Device(Install), Tethering (Software) (ver.GB28)</b>	Win XP/Vista/Windows 7	Mar 14, 2013	ENGLISH	511.66	<b>EXE</b>

1. Title Simple\_Upgrade\_Tool\_Generic\_R760\_GB28.exe  
2. Applicable Model Samsung Galaxy SII (SCH-R760), model code SSCH-R760IBAXAR  
3. Carrier or Corporate Customer Generic  
4. Description This is a software upgrade for the Generic Samsung Galaxy SII (SCH-R760). This software will update your Galaxy SII to GB28. For complete upgrade instructions see, [www.samsung.com/us/mobileupdates/generic/gs2](http://www.samsung.com/us/mobileupdates/generic/gs2)

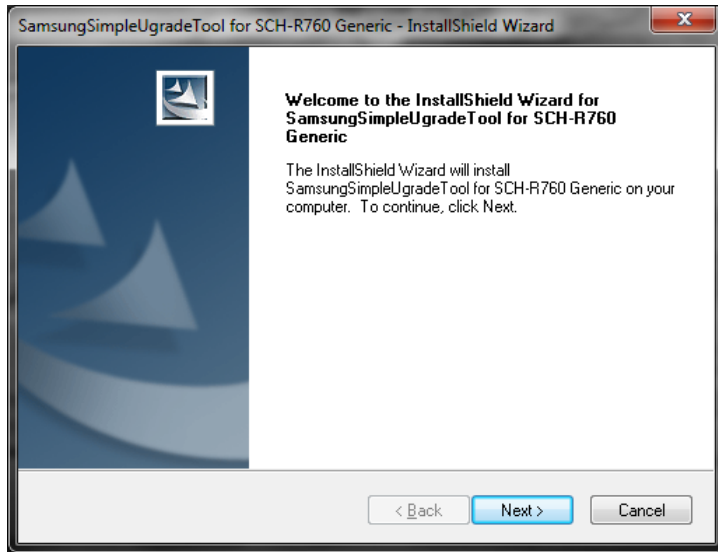

- 3) Once you have the “**SimpleDownloader**” upgrade software from the Samsung site on your computer, you will need to install it on a Windows PC. If the software does not auto install follow the below steps.

**Step 1:** Double click the **Simple\_Upgrade\_Tool\_Generic\_R760\_GB28.exe** file you downloaded from Samsung.com (should be on your desktop)

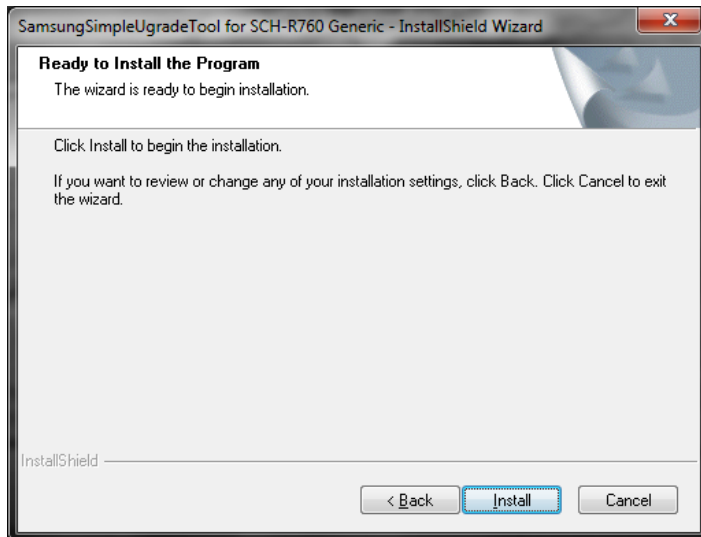

**Step 2:** The installer will prepare the upgrade for install.

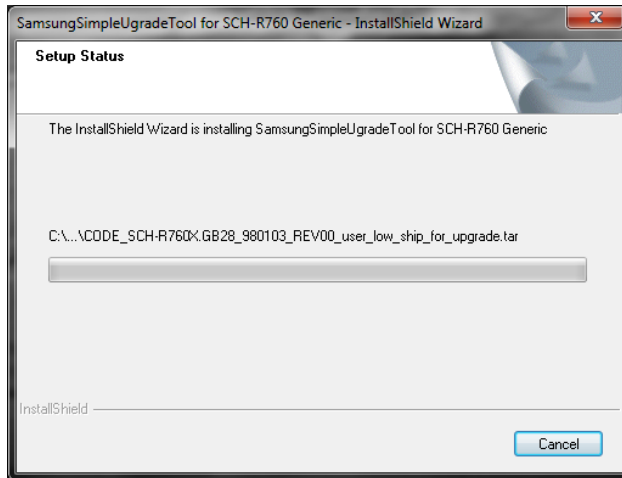

**Step 3:** Once the installer has prepared the install files click **Next**.

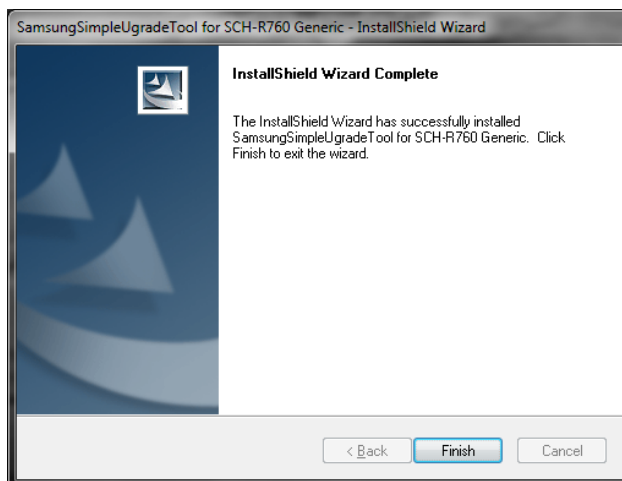

**Step 4:** Click **Install** to confirm and begin the install.

**Step 5:** The installer will begin to setup the upgrade tool.

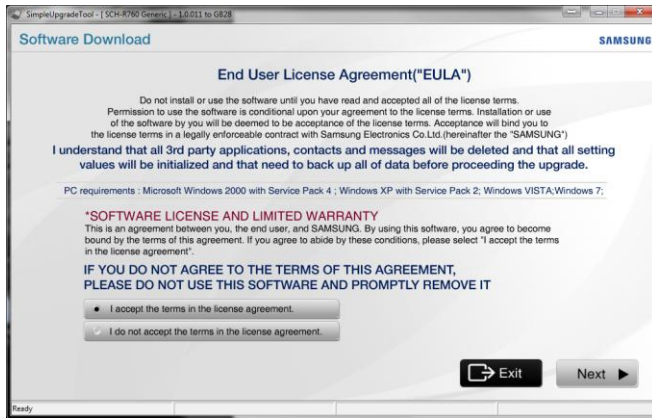

**Step 6:** Click **Finish** to close and complete the install.

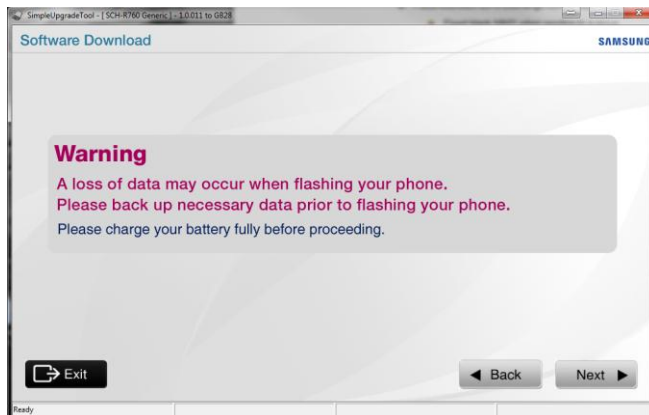

**Step 7:** Once the installer completes you will see the “**SimpleUpgradeTool for SCH-R760 Generic**” on your desktop. Double click the icon to start the upgrade process.

**Step 8: Accept** the license agreement and click **Next**.

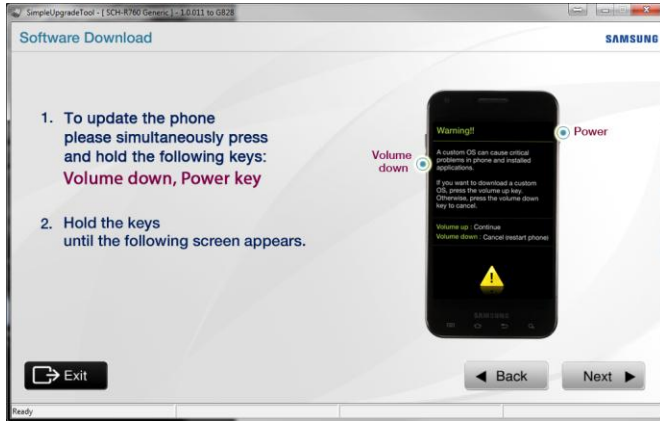

**Step 9:** Reminder to backup any items on you phone

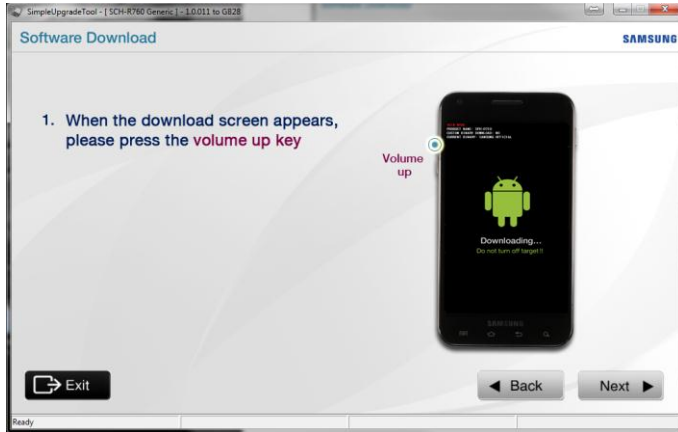

**Step 10:** Remove the battery, then put the battery back in, remember to place the cover back on.

**Step 11:** Press and hold the Volume down key and Power key at the same time.

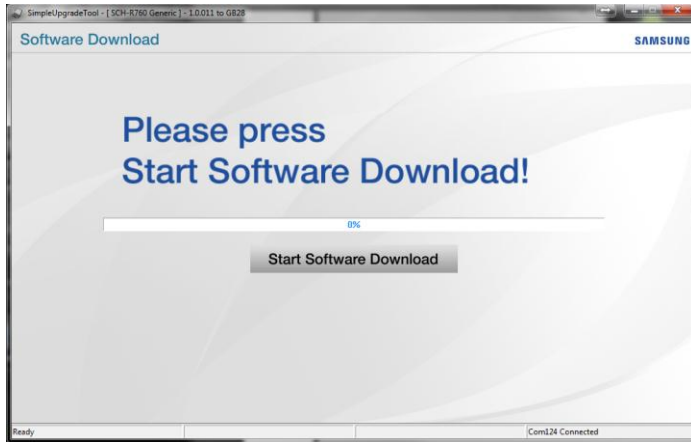

**Step 12:** When the download screen appears, press the Volume up key.

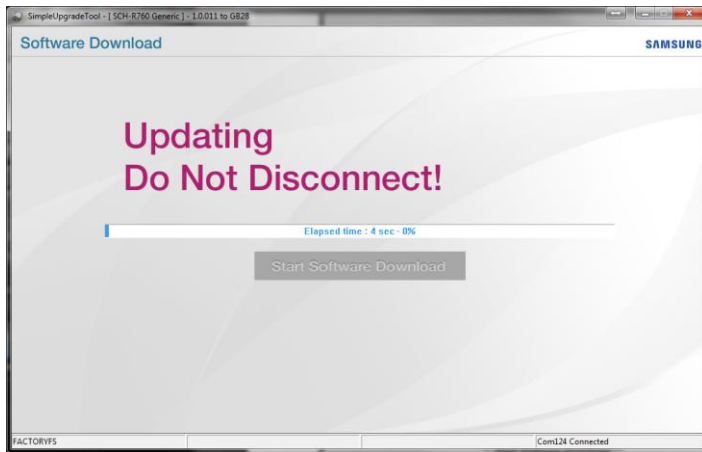

**Step 13:** Plug the USB cable into the Phone and PC.

**Step 14:** Click the “Start Software Download” button.

**Step 15:** The upgrade tool will begin to update the Software on your phone. The entire process should take around 5 minutes.

**Step 18:** Once you see the pop-up message “Completed Flash Programming” click ok and your phone will then re-start. You have successfully updated your MobileNation Samsung Galaxy SII.
